PROFESSIONAL SUMMARY

Full Stack Developer specializing in MERN and TypeScript with experience building scalable, real-time web applications. Skilled in REST API development, authentication systems, and responsive UI design. Developed production-level systems including attendance-payroll automation and e-commerce platforms with dashboards and admin panels.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, C++, Java
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Redux, Responsive Design
- **Backend:** Node.js, Express.js, REST APIs, Firebase (Auth, Firestore)
- **Databases:** MongoDB, MySQL, Firestore
- **Tools:** Git, GitHub, Vercel, Netlify, Postman, VS Code

PROJECTS

AttendX – Attendance & Payroll System

Live

- Built a real-time attendance and payroll system with automated salary calculation based on monthly working hours.
- Implemented business logic for salary deductions when employees fail to meet monthly hour targets.
- Developed analytics dashboards to track attendance trends and workforce performance.
- Designed scalable architecture using **REST APIs and Firebase for real-time data handling**.

Full Stack E-commerce Platform

Live

- Developed a complete e-commerce system with authentication, cart functionality, and order history.
- Built an admin panel for product and order management.
- Implemented **state management using Redux** and optimized API calls for performance.
- Designed responsive UI ensuring seamless experience across devices.

Interactive Developer Portfolio (3D UI + Animations)

Live

- Designed an immersive portfolio using 3D effects, parallax scrolling, and Framer Motion animations.
- Built a fully **responsive UI** with performance optimization for smooth rendering.
- Focused on modern UI/UX principles and interactive user experience.

EDUCATION

Techno Main Salt Lake

B.Tech in Artificial Intelligence & Machine Learning
